Invest in Holland Results 2015-2019

In internationally challenging times, the Netherlands continues to be a place of choice for foreign companies. In 2019, 397 international companies – such as Fresenius, FujiFilm Irvine Scientific and Swisscom - chose our country with the help of the *Invest in Holland network*. These companies expect to create more than 14,000 direct jobs and invest 4.3 billion euros in their first three years in the Netherlands.

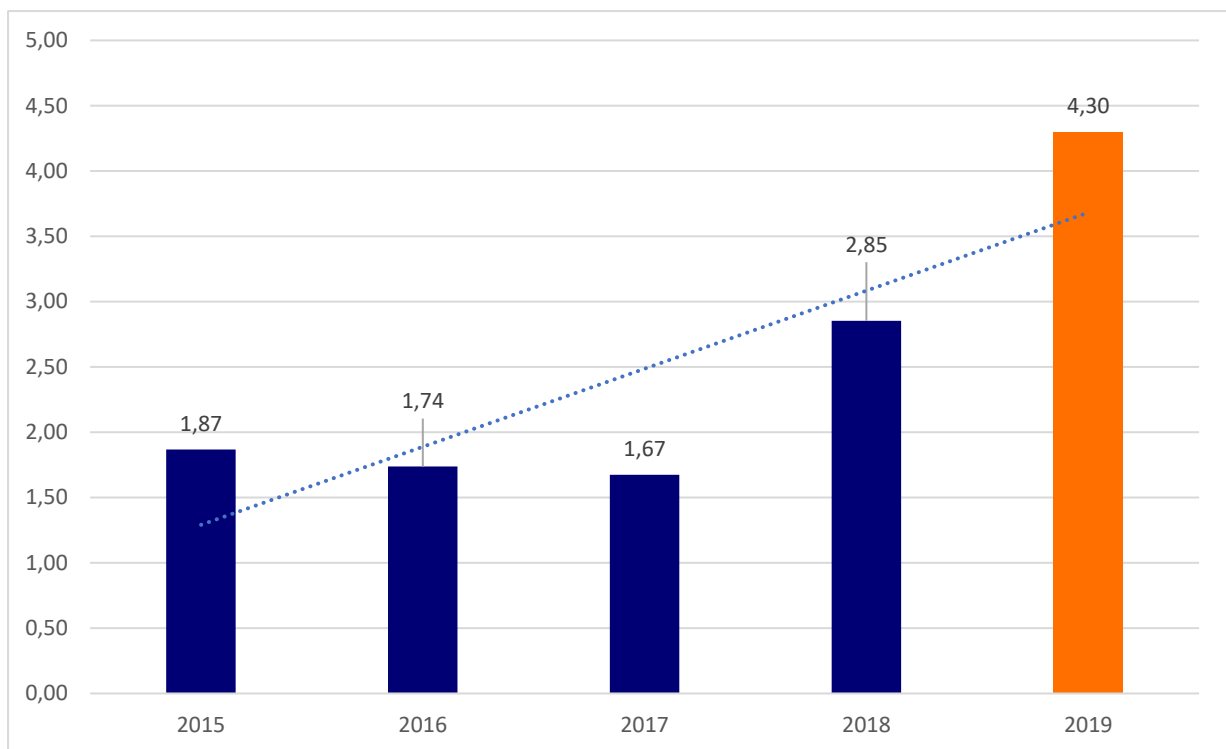

Number of foreign investment projects per annum over 2015-2019

Number of jobs per annum over 2010-2019

Investment amount in € billions per annum over 2015-2019

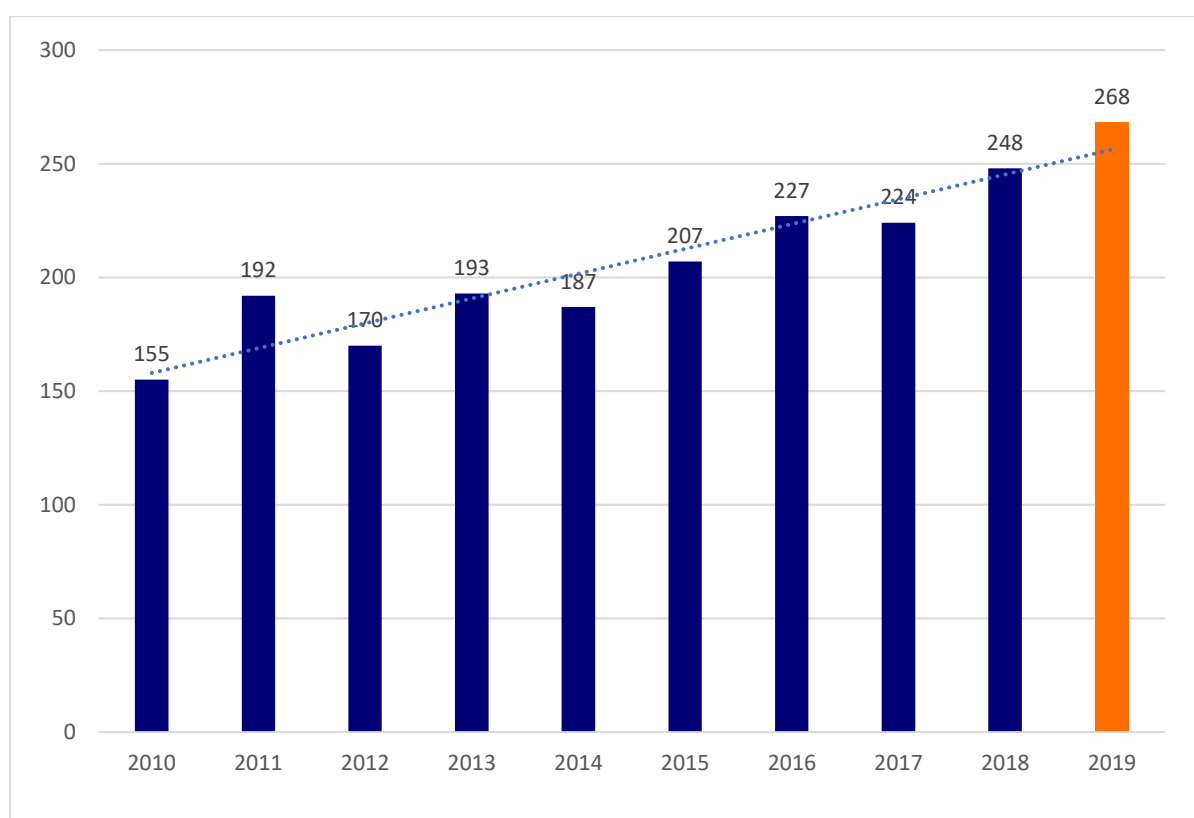

Note that investment amounts can fluctuate from year to year. This figure is strongly influenced by specific capital-intensive investment projects, such as production facilities, data centers or large hubs.

Results NFIA 2010-2019

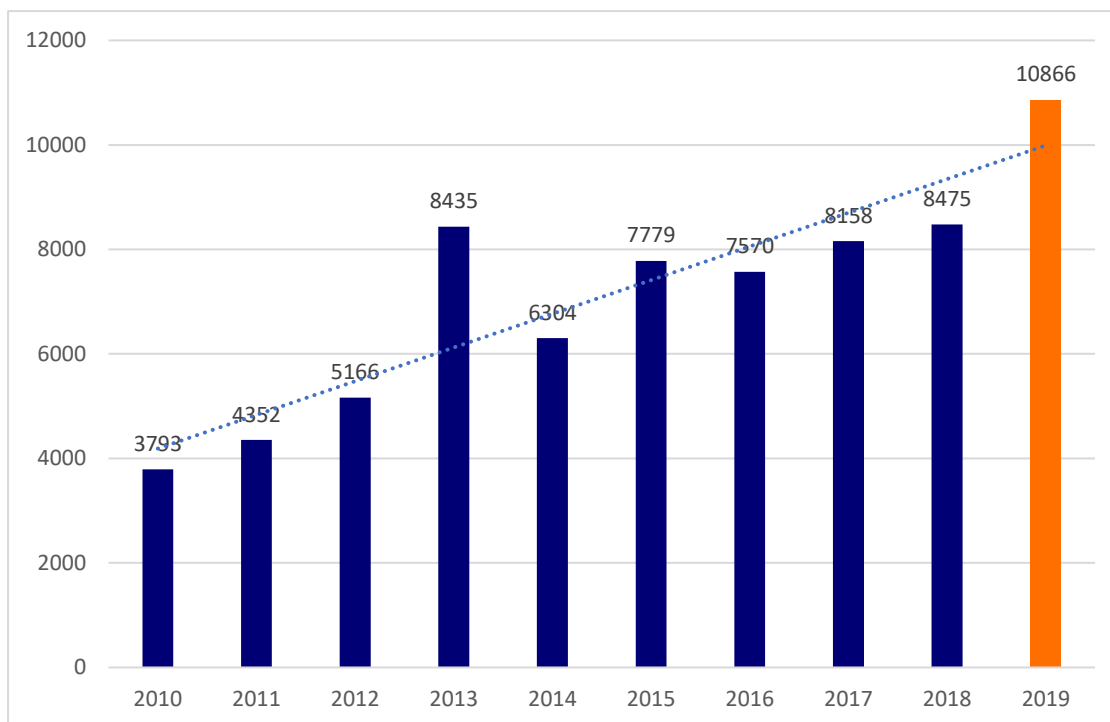

Within the Invest in Holland network, the NFIA is responsible for attracting 268 of the 397 foreign companies. The investment plans of these companies are expected to lead to 11,000 direct jobs and 4.1 billion euros of investment. Over 10 percent of the jobs reported in the NFIA results is related to job retention. In addition to attracting new foreign investment to the Netherlands, the NFIA is also tasked to retain international companies, who are reviewing their European strategy, for our country.

Out of the foreign companies that choose the Netherlands, around a third comes from Asia, a third from North and South America and a third from the rest of the world (Europe, Middle East, Africa and Oceania). Last year, the most companies attracted to our country came from IT, Creative and Chemical sector, as well as Life Sciences & Health. Within these sectors, various types of business activities were represented; for example, European Headquarters, production facilities, data centers and research laboratories. Employment reported always results in actual jobs, as the NFIA the Invest in Holland network only support companies that aim to create actual employment.

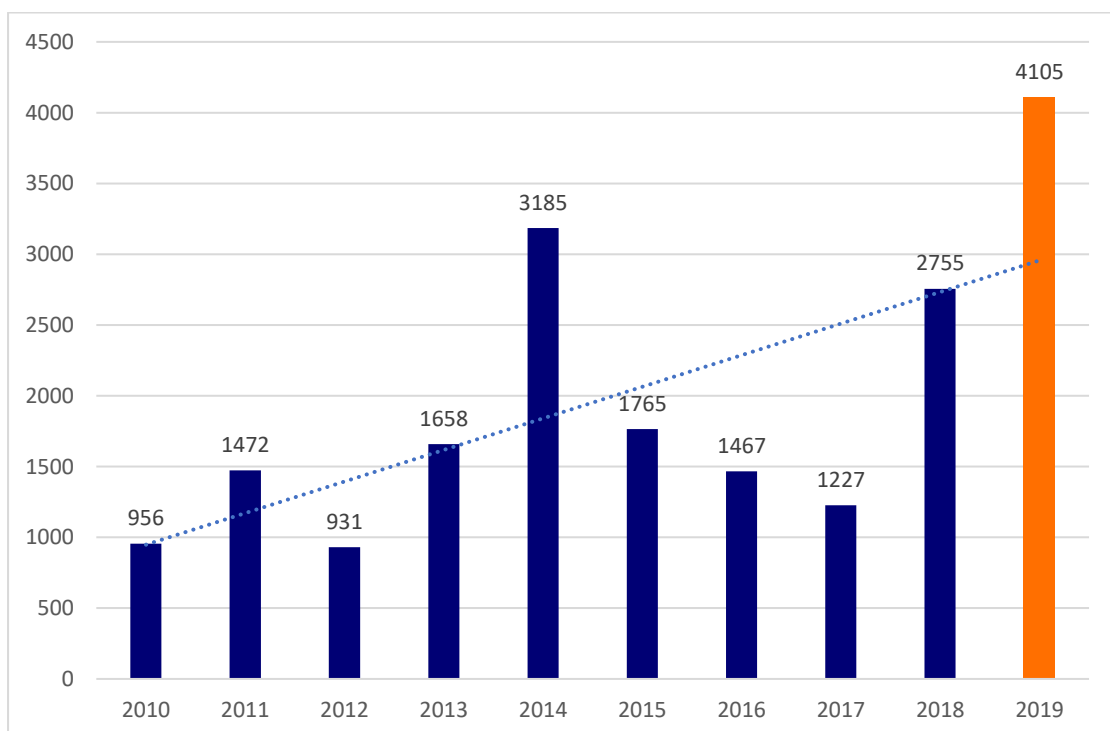

Number of foreign investment projects per annum over 2010-2019.

Number of direct jobs per annum over 2010-2019

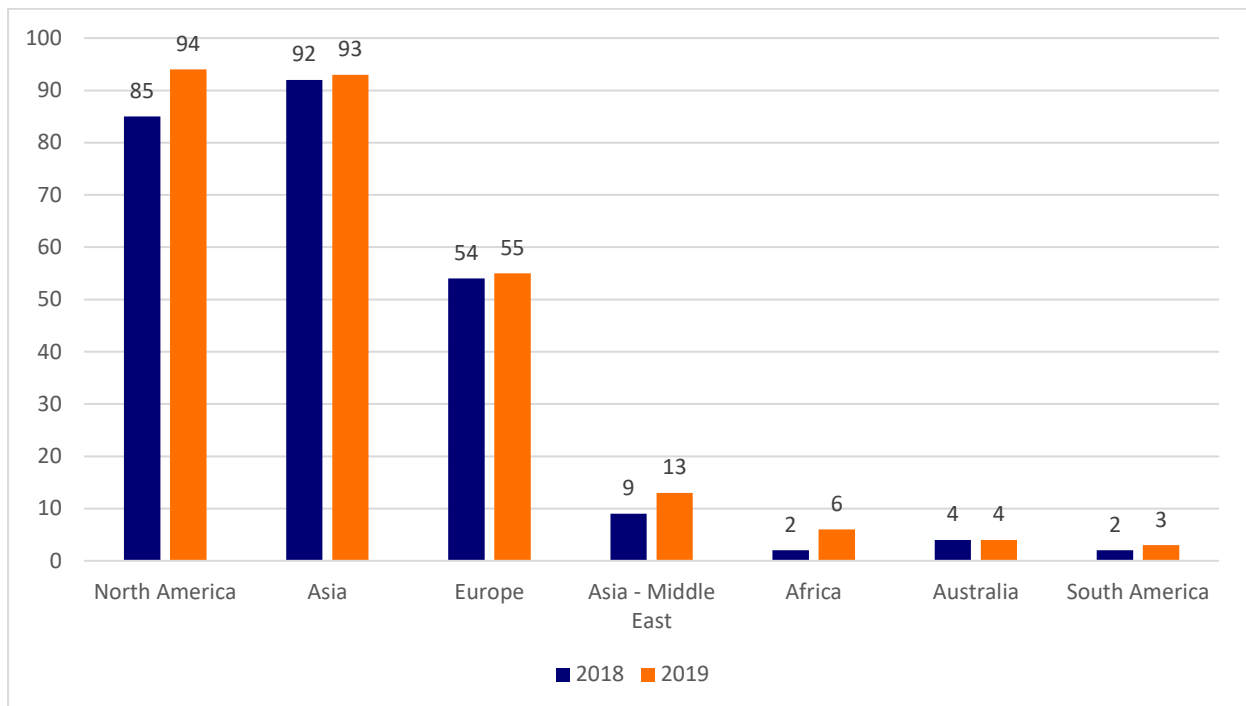

Investment amount in € million per annum over 2010-2019

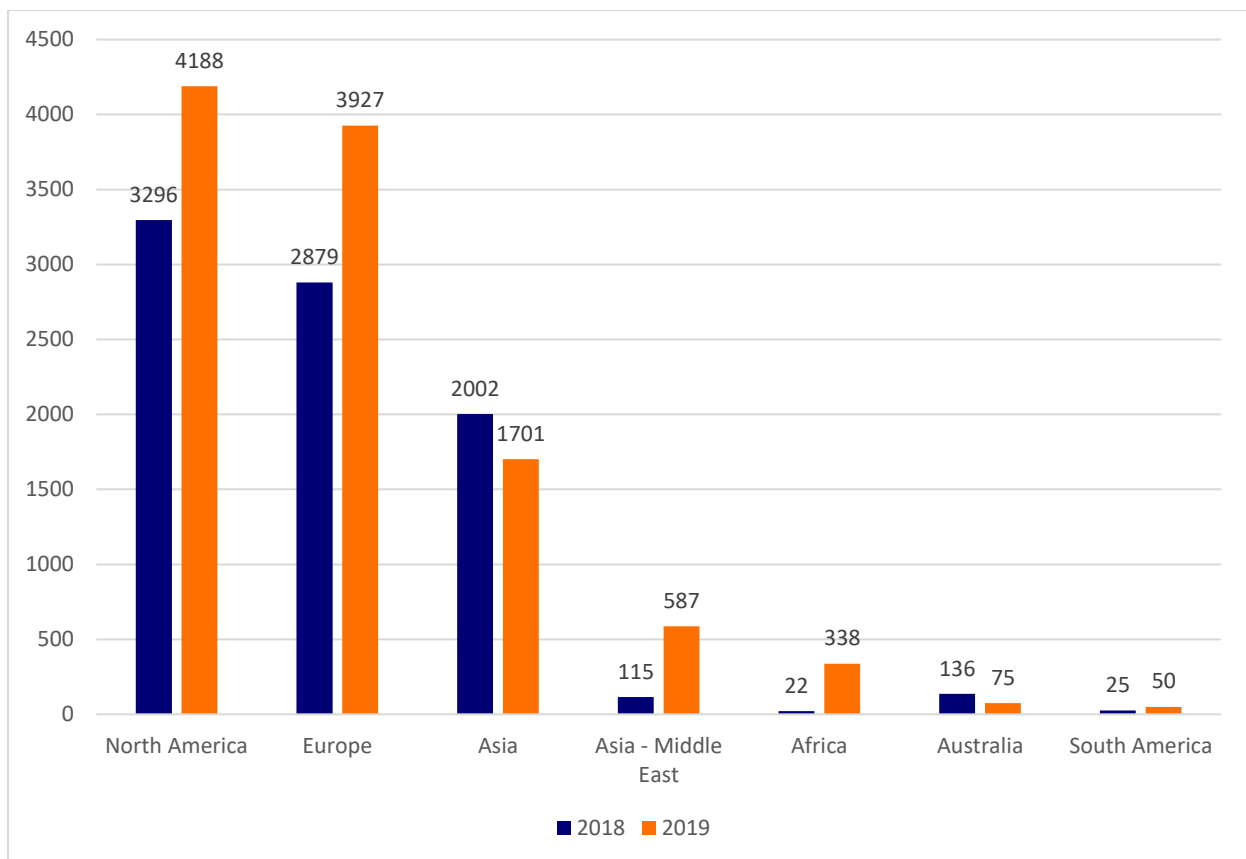

Note that investment amounts can fluctuate from year to year. This figure is strongly influenced by specific capital-intensive investment projects, such as production facilities, datacenters or large hubs.
